

Welcome to the 24-25 school year! We are excited to see all the existing and new faces as we kick off a new year at Plattsburgh City School District.

This year, our focus will continue to provide the students with a variety of wholesome and nourishing meals prepared at each campus daily. We will continue to support our local farmers by sourcing out as much seasonal and organic food as possible. Our most commonly used vendors include:

- Donahue's Livestock Farm (breakfast sausage, burger patties)
- Essex Food Hub (cornmeal, oats, pasta)
- Juniper Hill (farm fresh eggs, carrots, potatoes, apples)
- Lillie Valley (ground beef)
- North Country Creamery (yogurt...lemon is our favorite!)
- Parker's Family Farm (maple syrup)
- River Valley Regeneratives (all kitchen food waste is composted and picked up weekly)

Once again, all meals will be offered to every student at NO COST, under the Federal Community Eligibility Provision Grant (CEP).

The cafeteria staff and I look forward to providing your child with nutritious and delicious foods every day.

Thank you,

Jocelyn
